**Workshops:** Hands-on workshops bring together individual artists to encourage students to actively discover their own artistic potential. Ideal for after school, library, or community center programs. Most workshops are project-based.

**Residencies:** Residencies are multiple, participatory workshops and require a minimum of 3 sequential sessions per student group, and can be expanded into semester-long projects. Residencies take place in partnership with the classroom teacher and either focus on arts-integration or the artistic process.

## living mural

This unique program combines visual arts and horticulture to create a living mural for the selected schools and their community. The program is designed to utilize the arts to provide the participants the inspiration, interest, and opportunity to connect to nature through gardening.

**Through a series of arts-integrated workshops, participants of the program:**

- **Design a garden mural for the school utilizing patterns and contrasting colors**
- **Select and plant an array of plants**
- **Learn to care for the garden**
- **Maintain and grow their community garden**
- **Host a community unveiling of the mural and provide family take-home guides on creating their own living mural**
- **Make meaningful connections between horticulture and the arts and creativity**
